LOUISVILLE.

Millard Fillmore. OF NEW YORK.

FOR VICE PRESIDENT. ndrew Jackson Donelson,

The Daily Journal has much the meat on Sundays, Mondays, Tuesdays, est circulation in the city and dou- Thursdays, from the Thursday after Ash Wedthe circulation in the country of any nd the Weekly Journal has much more double the circulation of all the Friday. But, at the same time, he makes her weekly papers in Louisville put known that, in addition to infirm persons, who

readers will perhaps remember an anof their parishes, the said alms to be distributed
by the Archbishop himself among the orbane e of clay. The subject is of sufficient im-

those who take advantage of the permiss The doctrine that all the earths or oxyds are to be devoted to the general purposes of the ent in the time of Lavoisier, and we believe ly plausible hypothesis than as an actual ordingly one of the most interesting time, to utilize their results by obtaining he problem, having received satisfactory s ars to have centered chiefly upon clay.

rey Davy, at the beginning of the will only give us one in five for every number ary, availing himself of the recent we have in the meeting to-night. Americans, vani and Volta, reduced the remember this; and, if they will lie, let then pability that clay was the oxyd of lie multiply as often as Sag-Nicht figures choose llic base or other. This probability to make it ridiculous. Swell your numbers a or Wohler converted into an absolute much as possible. tainty in 1828, by heating chloride of aluam with sodium, and obtaining thereby climinium, the actual metallic base of clay.

and sister cities are quirering with excitement to hear the news of the reception of the nominations, and thus remembering, let them send a s process, however, beside its expensive cible to fused globules without an additional shout of satisfaction that will make their hear s. The problem, so far as clay is con- swell with delight. ed, now of course related simply to the faast year, M Deville, in France, announce at by substituting fluorid of aluminium for

ies of aluminium in the desired form of glothe cost. The chief advantage of the method ion discovered by M. Rose, which uble fluorid of aluminium and sodium sold to the soap-boilers of Stettin and other ald be had in Berlin for about \$2.50 per hun- have been translated into different langua advance beyond the relatively expensive pro ss and simplicity of his method as well as in ornaments of physics in America, that ou nguished European savans whose names w

praise they receive.

[For the Louisville Journal.]
I AM THINKING.

By MARION HARLAND

I am thinking, I am thinking Of the spirit's winter-time When the robe of loving charity Should well a brocker's or me:

And this is what I'm thinking, These are the less nasent Earthward by white-winged fair To eyes and hearts attent,

vill prove both numerous and highly valuable It is said to be a metal of peculiar whitener nging sound as marvellously sweet as that of of the sun. It also tarnishes less easily tha hat metal. It cannot fail to rank very high

nay as well add, what our scientific readers are that any nomination for the Presidency and ably aware of, that a series of experiments Vice Presidency ever created more enthu tely devised in the laboratory of Professor than that of Fillmore and Donelson has done. en, of Heidelberg, by M. Matthieson, has From all the thirty-two points of the compass esulte: in the extraction of calcium, the metal- we hear the loudest shouts of exultation over lic base of lime, from the muriate of lime, and our noble ticket. It will not be our policy to ne establishment at the same time of the fact fill up the Journal with extracts from other pa that the equivalent salts of soda and potash and strontia and baryta could be reduced to the readers will be gratified in reading the followthought to be a white metal like silver, M. Mat-theison finds to be of a light yellow color, like that of gold alloyed with silver. It is too sus-ceptible to atmospheric changes and too brittle

ap its metallic base is glacina, an entry support the coming one oned in those beautiful gems, the emerald and of far moving gives brighter than the coming of the coming on the coming of the coming on the coming of the coming on the coming on the coming of the coming of the coming on the coming of the coming obtained by Wohler, its properties are now for | "

the first time described by M. Debray, a pupil of M. Deville. It is a white metal, almost as superior to the action of air and acids as aluminium itself, and is even one fifth lighter than that metal.

Thus wondrously do the labors of disciplined intellect, while educing the glittering metal involved in its drapery of earth, educe like wise the simplicity and beauty of the "plan" involved in the "mighty muze" of nature.

We resionce that the Legislature has passed

throughout Kentucky. Men will be slow to engage in the destruction of the property of persons obnoxious to them when they know that the loss will fall not upon those they fall would injure, but upon the community in general.

THE GREAT CAMPAIGN-THE LOUISVILLE OURNAL .- We have received a very great number of letters inquiring of us whether we intend to issue a campaign paper for the next summer and fall. We have thought much upon the subject, and our conclusion is not to issue one. The reason is that we think it better for the great interests of the people that a vast cirsheet throughout the approaching campai

to clubs at rates within the means of all. There is no man who cannot afford a dollar and a half per year for a paper filled with judicious politi It is less than three cents a week, and who i there that cannot command that mere trifle?

The circulation of the Weekly Journal is al ady greater than that of our campaign paper will in one month be greater by thousands han that of any campaign paper ever pubshed in the United States. It will, by the con nued exertions of our friends, go wherever a ood work is to be done. It will reach the

ry, and miscellaneous matter, that must render far more valuable in its influences than any nere campaign paper, devoted exclusively to So let none of our myriads of friends hold ack for a campaign Journal but go to work with all their might, and, by the raising of lubs, spread our regular Weekly wherever hey want good blows struck for the American ause. We will strike such blows if Heaven

riend of ours not only to get up a club for u wn county or in neighboring counties, who, if we send them copies of our prospectus, will be likely to make exertions in behalf of our paper.
